

FOR IMMEDIATE RELEASE

**Home Suite Home Improvements and Laneway Consulting
Announce Partnership**

A joint venture to create Laneway homes for Vancouver residents

Vancouver, April 2010– Home Suite Home Improvements is proud to announce a new partnership with Laneway Consulting. Home Suite Home chose Laneway Consulting as a partner for the creation of Laneway homes because of the two companies' parallel values. Both Home Suite Home and Laneway Consulting strongly believe in customer satisfaction and attention to detail. Both companies have a mutual dedication to creating top quality homes. This fundamental commitment is guaranteed by a 10 year warranty backed by Pacific Home Warranty.

A Laneway house is a small residence that faces the back lane of a residential lot. The primary uses for this property are either as a rental property or for family use. Having a Laneway home and using it as a rental unit is a simple way to maximize the investment on your home. With a rented Laneway home, you could see a return on your investment with the first month's check!

"I am proud to be partnering with LCI," says Siegfried Penner, owner and manager of Home Suite Home, "the partnership was an easy decision to make; only with LCI can Home Suite Home build the simple, all in one customer package that this partnership will create.

For more information about Laneway Consulting Incorporated, and Laneway homes, see the LCI website- www.lanewayhouse.com
